

The *Experts* in Oracle ProjectsSM

User Defined Attributes (UDA):

The Magic Bullet for
Customizing Oracle Projects

Presented by Neeraj Garg

Vice President, Consulting Services

About Project Partners, LLC

- ✍ Founded in 1997 by former chief architect of Oracle Projects
- ✍ Former Oracle developers, consultants, support technicians and marketing personnel
- ✍  ORACLE CERTIFIED PARTNER
- ✍ ~175 successful customers
- ✍ Expert services
- ✍ Products to extend Oracle's solutions

Our Services

- ✍ Implementation
 - ✍ Full Projects Suite
 - ✍ Financials & Projects
- ✍ Extensions
 - ✍ Library of proven successes for E&C, Govt Contractors, Prof Services industries
- ✍ Conversions
- ✍ Upgrades
- ✍ Training
- ✍ Premium Support

Our Products

✍ OP3

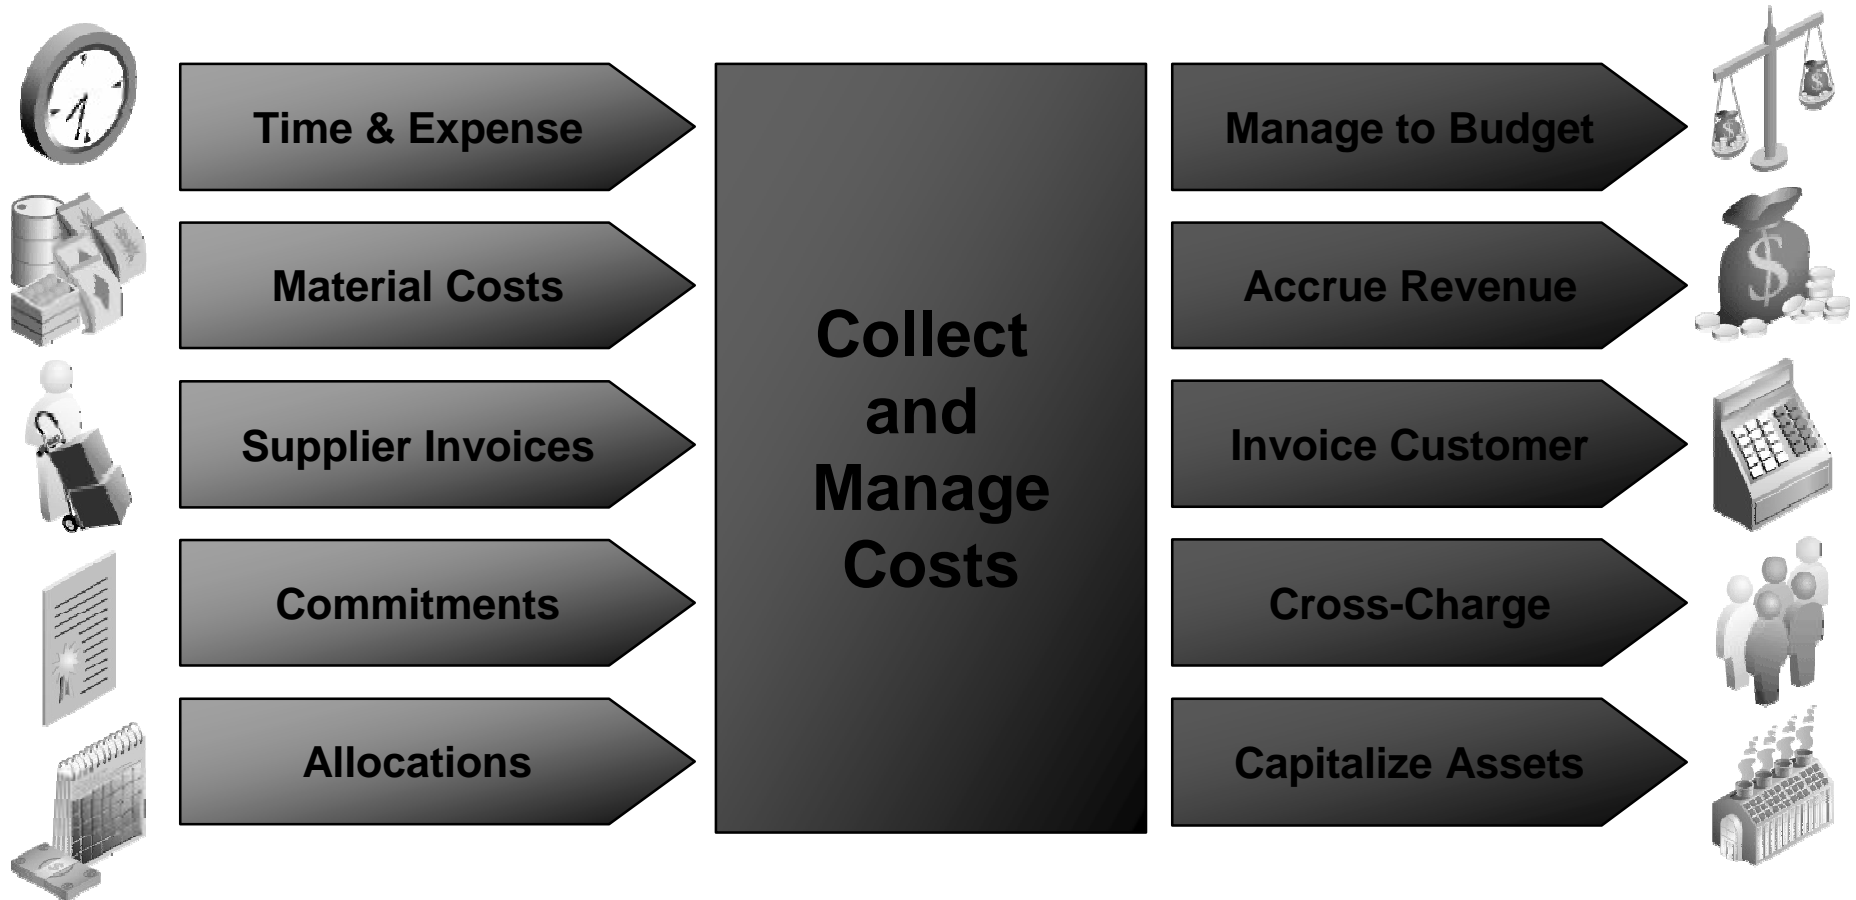

- ✍ Pre-packaged bi-directional integration between Primavera and Oracle Projects
- ✍ Used by TKCC USACE, Iraq PCO, Bollinger Shipyards and more....

✍ Project Information Center (PIC)

- ✍ Custom Dashboards and Reporting
- ✍ Invoice Consolidation and Printing
- ✍ Used by KCI, DAI, ASRC, Abt Associates and more...

Then....Project Accounting

OLD Forms Based UI

Used by Project Accountants

The image displays several overlapping Oracle Applications forms. The forms include:

- Project Details:** Fields for Number (T, Lab Const), Type (Lab Construc), Long Name (Lab Construc), Trans Duration (01-JAN-2002), and Description (Template for Public Sect).
- Budget Lines:** A table with columns for Version Number (Draft), Task Number, View Lines For (All), Resource Alias, Amount Type, and FE.
- Project Expenditure Items:** A table with columns for Trans Id, Project, and Task.

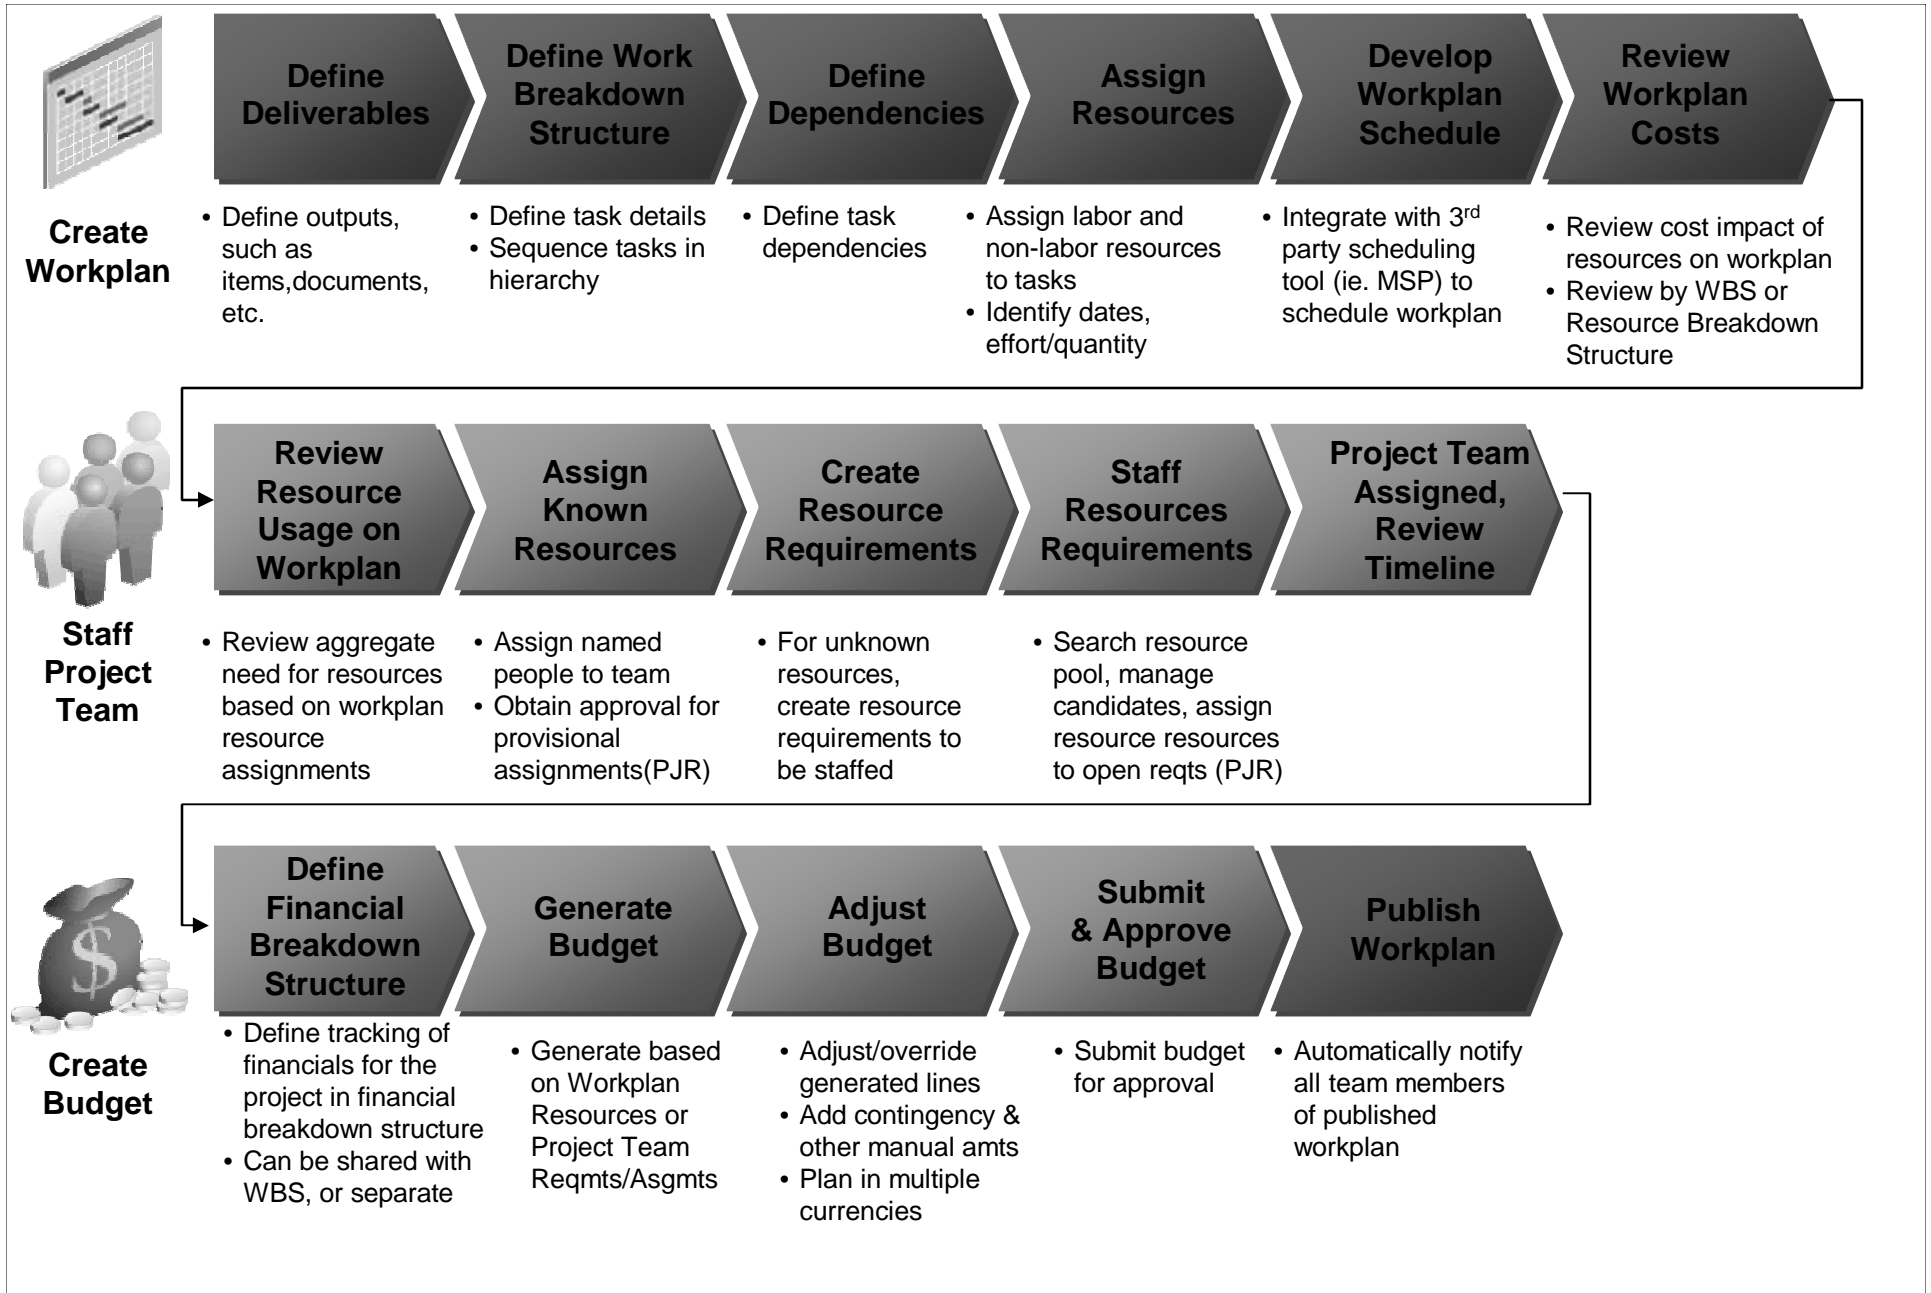

Trans Id	Project	Task
5887	Time & Materials	3.0
5888	Time & Materials	5.0
5889	Time & Materials	6.0
5892	Time & Materials	1.2
5896	Time & Materials	2.0
5899	Time & Materials	1.1
5901	Time & Materials	1.2
5905	Time & Materials	2.0
5908	Time & Materials	1.1
5910	Time & Materials	1.2
- Invoice Summary:** Fields for Project Number (Time & Materials), Customer Name (World of Business), Draft Number (1), Invoice Currency (USD), Invoice Amount (111,420.00), and Invoice Status (Accepted in Receivable).

Each form has a menu bar (File, Edit, View, Folder, Tools, Window, Help) and an Oracle logo. The bottom of the forms shows a record indicator (e.g., Record: 1/39) and a Java Applet Window.

& Now..... With 11.5.10.FP.M.....

- ✍ Oracle Projects Family Pack M (11.5.10.M)
 - ✍ Released May 2005
 - ✍ Brings Projects into the Front Office
 - ✍ Completely new functionality in HTML UI
 - ✍ Used by Project Managers and Team Members
 - ✍ Planning – Workplan, B&F, Staffing Plans
 - ✍ Execution – Issue& Change Management, Progress
 - ✍ Monitor – Project Performance, Exceptions, Status
 - ✍ Organizational – Portfolio Analysis

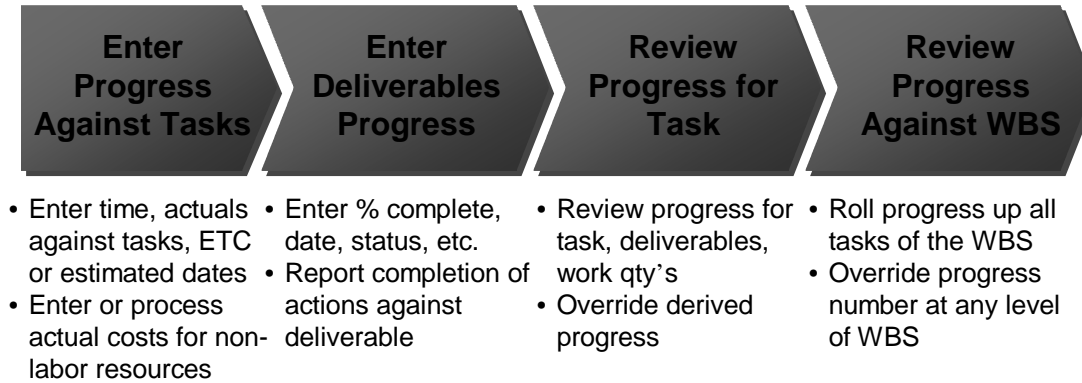

Planning the Project

Executing & Controlling the Project

Collect Progress

- Enter time, actuals against tasks, ETC or estimated dates
- Enter or process actual costs for non-labor resources

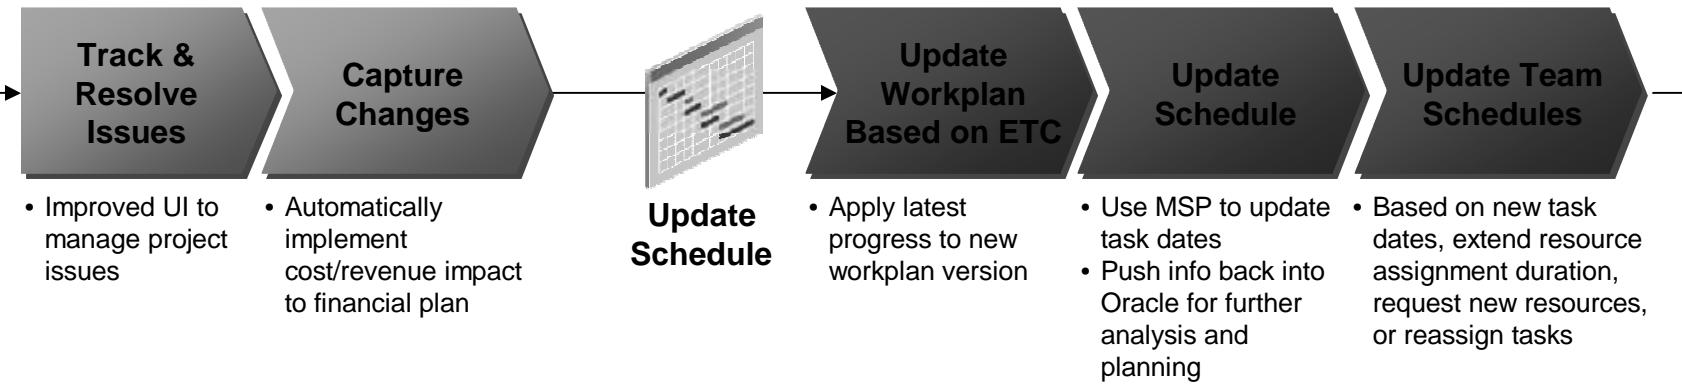

- Enter % complete, date, status, etc.
- Report completion of actions against deliverable

- Review progress for task, deliverables, work qty's
- Override derived progress

- Roll progress up all tasks of the WBS
- Override progress number at any level of WBS

Manage Issues & Changes

- Improved UI to manage project issues

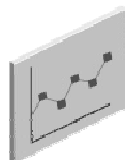

- Automatically implement cost/revenue impact to financial plan

Update Schedule

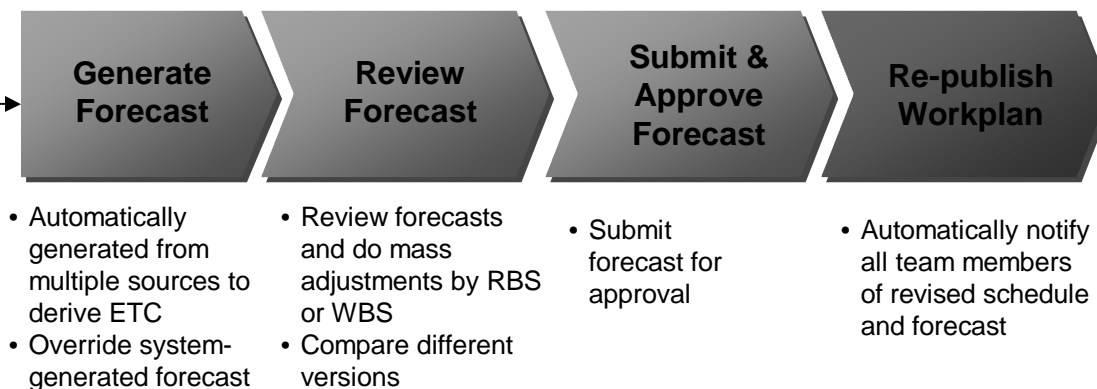

- Apply latest progress to new workplan version

- Use MSP to update task dates
- Push info back into Oracle for further analysis and planning

- Based on new task dates, extend resource assignment duration, request new resources, or reassign tasks

Create & Update Forecast

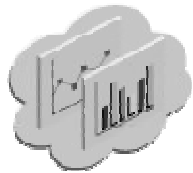

- Automatically generated from multiple sources to derive ETC
- Override system-generated forecast

- Review forecasts and do mass adjustments by RBS or WBS
- Compare different versions

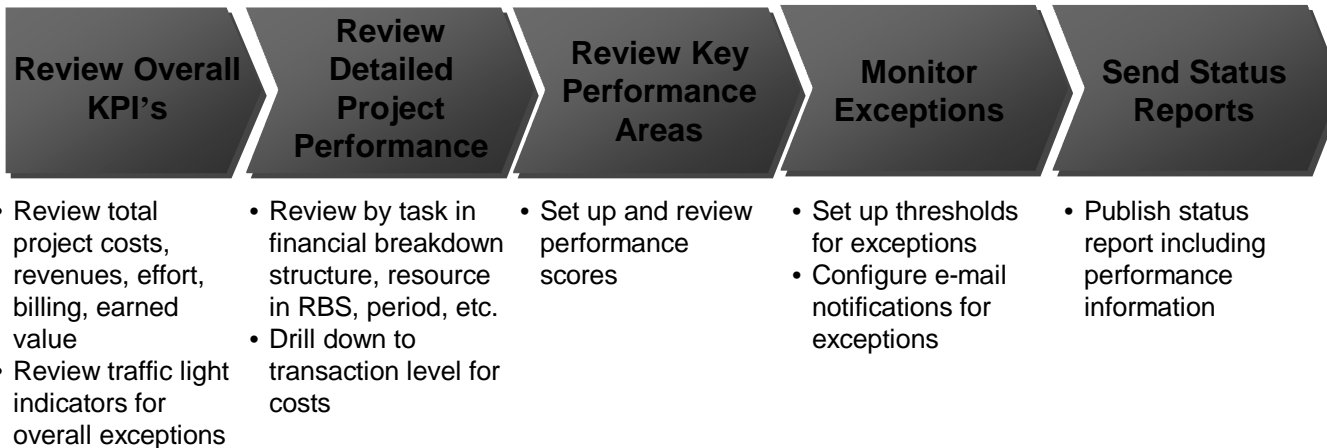

- Submit forecast for approval

- Automatically notify all team members of revised schedule and forecast

Managing Project Performance

Monitor Performance

User Defined Attributes (UDAs)

- ✍ What are these?
- ✍ Pros and Cons
- ✍ Setup Procedures

UDAs – What are these?

DFFs on Steroids

 **Unlimited**

 **Many Records of data against a Single Project/Task**

 e.g. Multiple Products, Funding Sources, etc

 **Displayed as Standard Project/Task Setup**

 **Provide for a function (via button or link) for validations / processing**

UDAs – Some Issues to be aware of

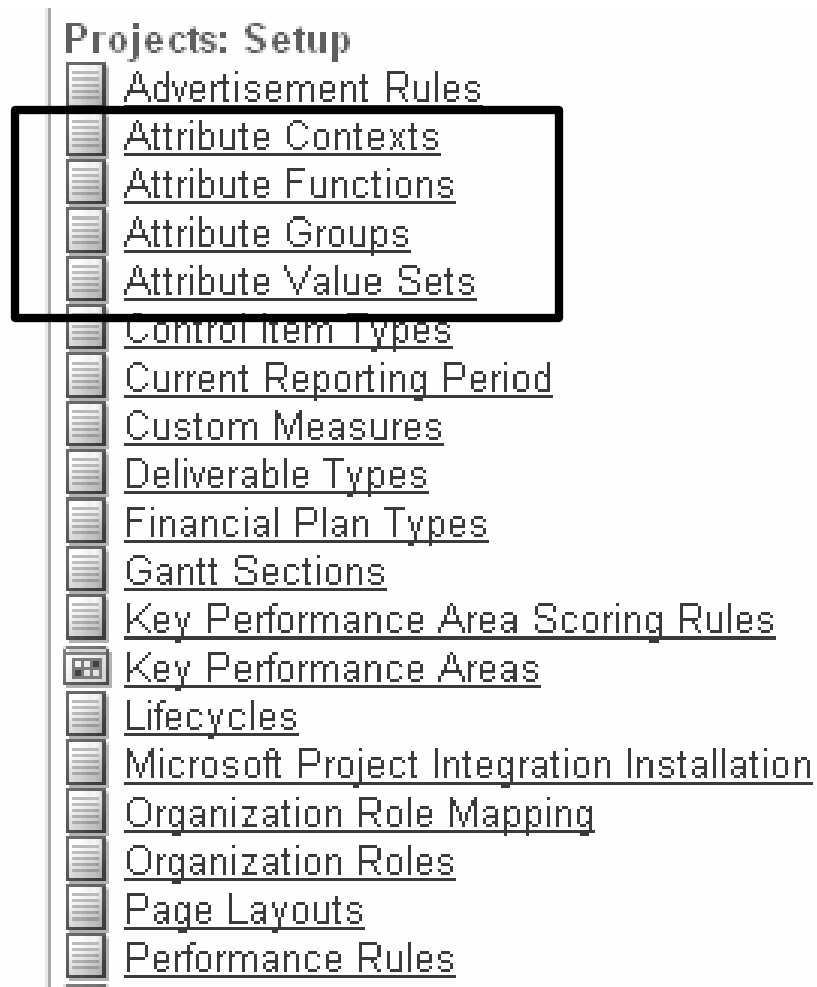

- ✎ Only available with the new HTML module – Project Management
- ✎ UDA Screens – a little clumsy
 - ✎ No provision for Scrolling – causing “Fat” Records due to record wrapping
 - ✎ No Sorts or Searches within UDAs
 - ✎ Need Triggers to disable Delete actions
- ✎ Only for Project & Task entities at this time

UDAs – Setup Procedures

- ✍ Define Value Sets for Fields you need
- ✍ Define Attribute Groups
- ✍ Define Attribute Functions
 - ✍ Write custom code to perform validations / processing
 - ✍ Register code with function
- ✍ Assign Attribute Groups / Functions to Project & Task Types / Classification Category & Code

UDAs – Setup Procedures

✍ Projects Super User Responsibility

User Defined Attributes (UDAs)

- ✍ Intended Uses
- ✍ Real-Life Examples

UDAs – Intended Uses

When UDAs were being designed...

- ✍ Listing of all Items used on an ETO Project
- ✍ Capture Objectives and Scope and items for the projects
- ✍ Capture External and Internal Contract Ts & Cs
- ✍ Capture Risk Items and Mitigations

UDAs – Real Life Example 1

Project Approval Hierarchy

- ✍ Professional Services Company – Needs to implement Approval Rules that change frequently
 - ✍ Practice Manager,
 - ✍ Sales Manager – for certain types of project
 - ✍ Finance – if certain criteria are met
 - ✍ Legal
 - ✍ Operations – if certain criteria are met
 - ✍ Senior Management

UDAs – Real Life Example 1

Project Approval Hierarchy

- ✍ Approvers in each group above depends on functional area, region, products included.
- ✍ Sr. Management Approval needed based
 - ✍ Total Proposal Amount over a Limit
 - ✍ Labor Margins under a limit
 - ✍ Cumulative Margin under a limit
 - ✍ Other Significant Risks identified by Proposal Team
- ✍ Track State of Proposal in Approval Hierarchy

UDAs – Real Life Example 1

Project Approval Hierarchy

- ✍ Cannot Hardcode in Workflow due to frequent changes in criteria
- ✍ Custom Tables need Custom Screens for data maintenance
- ✍ Solution – UDAs
 - ✍ Dummy Lookup Template (end dated)
 - ✍ UDAs for each criteria group
 - ✍ Generic Workflow that determines Approvers based on criteria and populates “Approval List UDA” on Project
 - ✍ Approval Status for each Approving Group

UDAs – Real Life Example 1
